## OUR EXPERTISE

Skin is the most visible organ of the body. It reflects the health of the body and acts as a barrier against injury and bacteria. Our clinic specialises in the diagnosis and treatment of skin and hair diseases such as:

- Acne (Pimples) & Acne Scars
- Allergy
- Alopecia (Hair Loss)
- Atopic Dermatitis
- Connective Tissues Disorders
- Dark Pigmentation
- Dry Skin
- Excessive Sweating
- Eczema
- Immunobullous Diseases
- Infections: Bacterial (Boils), Fungal (Ringworm), Viral (Herpes Simplex, Herpes Zoster, Warts, Molluscum Contagiosum)
- Lichen Planus
- Keloids
- Melasma
- Moles
- Pediatric Dermatology
- Psoriasis
- Rosacea
- Rashes
- STIs (Sexually Transmitted Infections)
- Stretch Marks
- Sunburn
- Vitiligo

## COSMETIC PROCEDURES:

- 1. Chemical Peels:** Our skin is able to replace old cells with new ones but this natural exfoliation begins to slow down as we age. With chemical peels, a solution of one or more exfoliating agents is applied on the face to remove the rough upper layer of the skin and to stimulate rejuvenation of new skin cells as a result of which we get tighter and smoother skin that is relatively free of lines and blemishes. Peels are extremely safe, if done under supervision of a trained dermatologist and are approved by the USFDA.
- 2. Radio Frequency Surgery:** Radio frequency waves are used to burn off skin lesions, including Age Spots, Skin Tags, Warts, Moles & Raised Lesions, Sun Damaged Skin and Small Red Facial Veins.
- 3. Mesotherapy (Collagen Induction Therapy):** Dermaroller / Microneedling: Micro injections of Vitamins, Minerals, Skin Lightening and Skin Brightening agents underneath the surface of skin by Derma Pen; lead to tissue remodelling by Collagen Induction. It is useful for Facial Rejuvenation, Dark Circles, Acne Scars, Stretch Marks and Hair Fall treatment.
- 4. Platelet Rich Plasma Therapy (PRP):** PRP is an exciting non-surgical therapeutic option for patients with Hair Loss in which patient's own blood is used for regeneration. There is no chance of infection since it resorts using your own blood.
- 5. BOTOX:** Anti ageing treatment that can be used to relax specific facial muscles that cause dynamic wrinkles. It is an effective treatment particularly for, Frown Lines, Forehead Lines, Crow's Feet (Smile Lines), Brow Lift and Jaw Shaping.
- 6. Dermal Fillers:** It is used in the treatment of Wrinkles, Sagging Face, Nasolabial Folds, Drooping of the Mouth Angle, Cheek and Lip Augmentation.
